

- CM  $\rightarrow$  Existing System
- DM  $\rightarrow$  Deploy an artifact

Dev Ops  $\rightarrow$  Jenkins, Git, Maven

Cloud  $\longrightarrow$  AWS

Plain Data  $\rightarrow$  Arns. Vault  $\rightarrow$  Encrypt

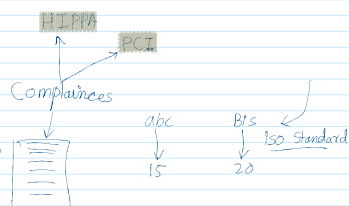

A diagram illustrating a transformation. On the left, a box labeled 'y' contains several horizontal lines representing data. An arrow points from this box to a box on the right labeled 'y'', which also contains horizontal lines, representing the output of a function.

- Config
- Standard

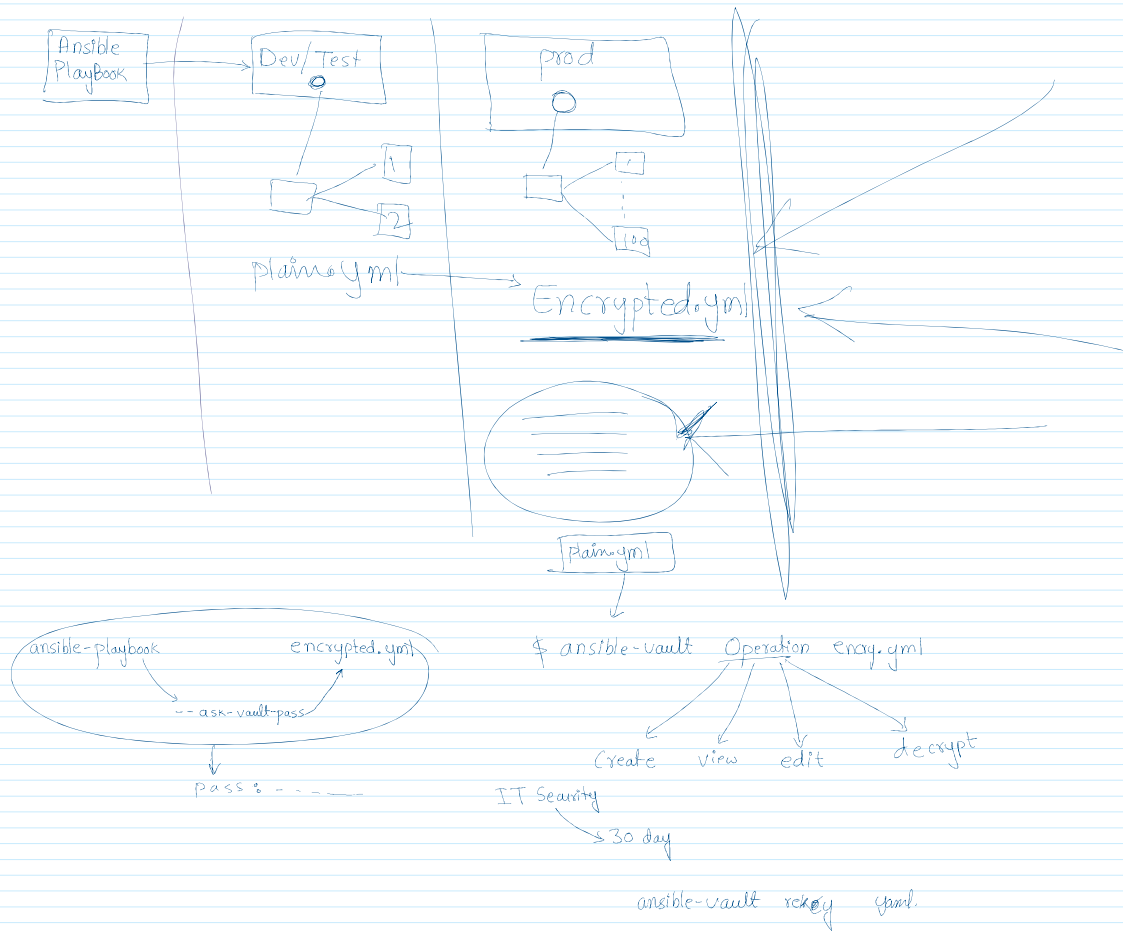

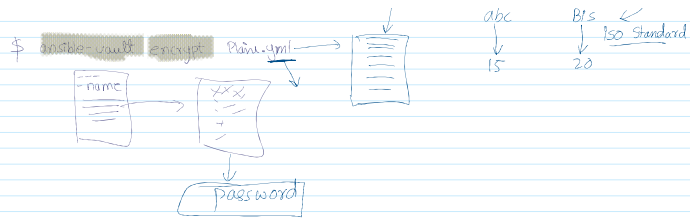

Ex:- \$ ansible all -m ping

```
$ ansible-playbook abc.yml
```

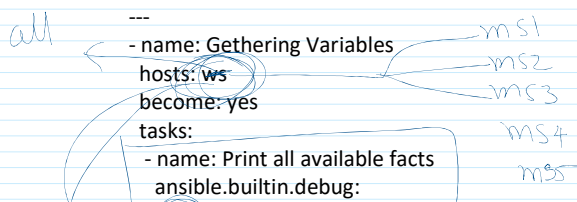

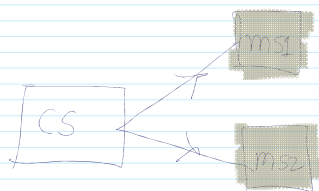

```
$ ansible-vault encrypt Plaintext.yml
```

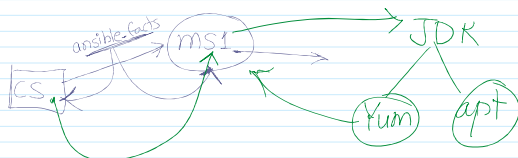

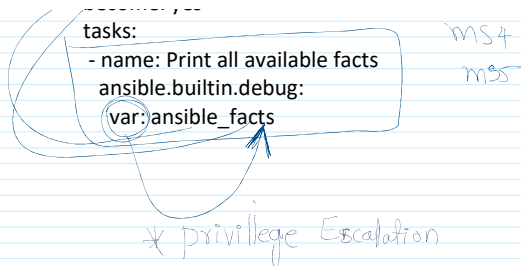

## ② Gathering fact

#### Ansible Facts:

ansible <HostName/GroupName> -m ansible.builtin.setup

sudo mkdir /etc/ansible/facts.d

sudo bash -c 'cat <<EOF > /etc/ansible/facts.d/preferences.fact  
[general]  
server=prod  
processors=2  
EOF'
